Brave New World is a one-day conference on the DTS campus that will explore how the church can effectively communicate the unchanging Word in a relentlessly changing world. With the help of Russell Moore, leading evangelical ethicist, we’ll look at current examples of where the church is succeeding—as well as where it has failed—in its responses to cultural shifts, and provide insight for moving forward. President of the Ethics and Religious Liberty Commission for the Southern Baptist Convention, Moore is the author of *Onward: Engaging the Culture Without Losing the Gospel.*

This event won’t be just a series of talks, but a dynamic gathering of leaders to participate in a frank and open forum on how the gospel compels us to engage our culture for the sake of Christ.
